Work Experience

MERN Stack Training   **June 2023 - July 2023**
Cipher Schools

- Acquired comprehensive skills in MERN stack (ReactJS, NodeJS, ExpressJS, MongoDB) during intensive training Cypher School.
- Designed and developed an online book management application, implementing CRUD operations for efficient data handling.
- Demonstrated ability to integrate front-end and back-end technologies, showcasing proficiency in full-stack web development.

NGO Work   **June 2022 - July 2022**
MUS INDIA (Manav Utthan Society)

- Implemented educational programs to boost primary school attendance and educate parents on the benefits of education and government-provided facilities
- Organized workshops for students to promote regular school attendance and conducted sessions for parents on the importance of education.
- Collaborated with community leaders to organize events emphasizing educational benefits, leading to increased school attendance and community engagement.

Projects

Employee Management System (EMS)| *ReactJS, Responsive Web Design*   **Oct 2024 - Oct 2024**

- *Developed an Employee Management System (EMS) using React, featuring an admin dashboard for managing employee records and an employee dashboard for user interaction. Utilized local storage for data storage, ensuring persistence of information. Implemented state management and responsive design for a seamless user experience across devices, while leveraging Tailwind CSS for a professional UI.*
